

MAXIMISE YOUR BUDGETING AND PLANNING EFFICIENCY

SAP BUSINESSOBJECTS EDGE PLANNING AND CONSOLIDATION WITH AFFECTO

Is your budgeting and planning being hampered by a lack of data transparency, conflicting versions of the truth, complex manual tasks and lengthy cycle times? If so, your business may be insufficiently agile to meet the tough demands of the market place and financial regulators.

SAP BusinessObjects Edge Planning and Consolidation (BPC), specially designed for small and medium enterprises (SMEs), can help by streamlining your planning and consolidation processes into one unified application. SAP BPC gives you transparency of all your financial data and a single version of the truth through a user-friendly interface based on Microsoft Office Excel. It provides you with efficient tools for budgeting, consolidation and forecasting. And it lets you set key performance indicators for easy performance management.

With SAP BPC, you cut cycle times and costs, simplify regulatory compliance and improve your planning and consolidation accuracy. As a result, your organisation is more agile, staff is more productive and your business risk is reduced.

WHY YOU SHOULD CHOOSE SAP BPC WITH AFFECTO

Affecto offers SAP BPC as a complete package solution for SMEs, saving you time and money. We have worked hard to develop a pre-packaged budgeting application for SAP BPC, based on leading industry standards, best practice and positive feedback from our satisfied customers. The application allows us to pick pre-defined processes for planning and consolidation and customize them to your needs. For you, this means implementation is faster, cheaper and more reliable.

Affecto's consultants understand not only the technology behind SAP BPC, but also the business processes that it aims to support. In addition to our pre-packaged SAP BPC budgeting application, we use Affecto Solution Framework (ASF) – a unique methodology that lets us draw on our experience from implementing over 500 successful Business Intelligence solutions across the Nordic region. ASF provides consultants with useful guidelines, templates and best practice as well as real-life sample documents from past Affecto projects. This helps us maximise the return on your investment.

WHAT YOU GET FROM YOUR SAP BPC PACKAGE SOLUTION

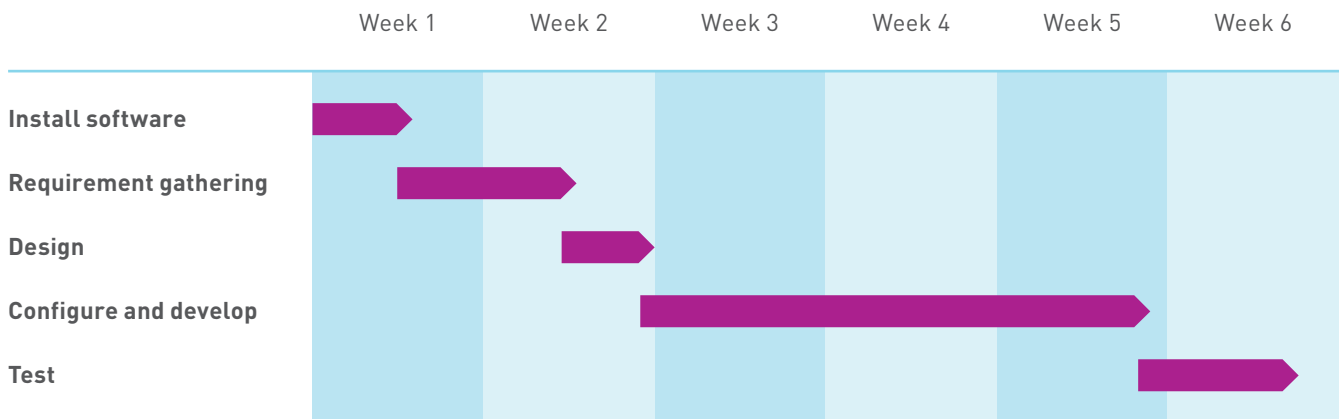

- SAP BusinessObjects Edge Planning and Consolidation software.
- Affecto's pre-packaged SAP BPC budgeting application.
- Implementation: We help define your specific requirements and configure the software to meet them.

WHEN YOU WILL START BENEFITTING FROM SAP BPC

Affecto Consultants will minimise implementation time to bring you the benefits of SAP BPC as soon as possible. Depending on the size of your solution, completion could take as little as four-six weeks.

HOW TO MAKE THE FIRST MOVE

Get in touch with Affecto to arrange an onsite presentation with one of our consultants or to find out more about SAP BPC and what Affecto's SME package solution can do for you.

With 1,000 highly skilled employees, Affecto is Scandinavia's leading competence centre for consulting, planning and implementation of solutions to support business management, decision making, data integration and processes. Working closely with our strategic partners, we provide leading, innovative solutions in the fields of Business Intelligence, Financial Intelligence, Business Analytics, Performance Management, Risk Management, Balanced Scorecard, Data Warehousing, Data Integration, Data Migration and Data Quality. Within each of these solutions, we aim to provide a market-leading competence when it comes to consulting, support, training and service management. All of our solutions are based on world class BI technologies, such as Informatica, SAP BusinessObjects, Oracle and Microsoft.
